Joseph D. Greco

SVP, Advanced Technology Group

Joe Greco is senior vice president of the advanced technology group at NVIDIA, a position he's held since 2010. He leads the development of next-generation silicon and substrate processes technologies as well as advanced circuit designs.

Greco joined NVIDIA in 1995 and has held a variety of senior engineering roles across the company, most recently as vice president of the VLSI group.

Prior to NVIDIA, Greco was a design manager at Media Vision and held mixed-signal design positions at Chips and Technologies and AT&T Bell Laboratories. He holds a BSEE degree from the Rensselaer Polytechnic Institute in New York and an MSEECS degree from University of California, Berkeley.

About NVIDIA

Since 1993, NVIDIA (NASDAQ : NVDA) has pioneered the art and science of visual computing. The company's technologies are transforming a world of displays into a world of interactive discovery — for everyone from gamers to scientists, and consumers to enterprise customers.
