

Deepu Talla

VP and GM, Mobile Business Unit

Deepu Talla is vice president and general manager of the Mobile Business Unit at NVIDIA. He joined the company in February 2013 as vice president of Tegra Business Development, responsible for expanding Tegra's presence in the smartphone and tablet markets.

He previously worked for more than 10 years at Texas Instruments. Most recently, he was general manager of TI's mobile computing business unit, responsible for the company's proprietary OMAP system-on-chip for mobile multimedia applications, as well as deployment of Google assets such as Android on OMAP for the mobile and embedded markets.

Talla previously was head of business development for OMAP smartphones, and also held roles in TI's video conferencing and digital imaging units. He first joined the company in 2001 as a systems architect.

Talla has authored several issued patents and holds a bachelor's degree in electronics and communication engineering from Andhra University in India, a master's degree in electrical engineering from Villanova University, and a Ph.D. in computer engineering from the University of Texas at Austin.

About NVIDIA

Since 1993, [NVIDIA](#) (NASDAQ : NVDA) has pioneered the art and science of [visual computing](#).
