

NVIDIA Announces GTC 2020 Keynote with CEO Jensen Huang Set for May 14

Get Amped for Latest Platform Breakthroughs in AI, Deep Learning, Autonomous Vehicles, Robotics and Professional Graphics

NVIDIA will release its GTC 2020 keynote address, featuring founder and CEO Jensen Huang, on YouTube on May 14, at 6 a.m. Pacific time.

Huang will highlight the company's latest innovations in AI, high performance computing, data science, autonomous machines, healthcare and graphics during the recorded keynote. Participants will be able to view the keynote on demand at www.youtube.com/nvidia.

Originally scheduled for March 23, the GTC 2020 keynote was postponed due to the coronavirus pandemic. NVIDIA moved the conference online, where the [GTC Digital](#) event has attracted more than 45,000 registered attendees who have participated in 300 recorded talks and dozens of instructor-led sessions.

Announcements included in the keynote will be posted at nvidianews.nvidia.com.

About NVIDIA

[NVIDIA](#)'s (NASDAQ: NVDA) invention of the GPU in 1999 sparked the growth of the PC gaming market, redefined modern computer graphics and revolutionized parallel computing. More recently, GPU deep learning ignited modern AI — the next era of computing — with the GPU acting as the brain of computers, robots and self-driving cars that can perceive and understand the world. Certain statements in this press release including, but not limited to, statements as to: when NVIDIA will release its GTC keynote; what the keynote will cover; how to view the keynote address; and where announcements in the keynote will be posted are forward-looking statements that are subject to risks and uncertainties that could cause results to be materially different than expectations. Important factors that could cause actual results to differ materially include: global economic conditions; our reliance on third parties to manufacture, assemble, package and test our products; the impact of technological development and competition; development of new products and technologies or enhancements to our existing product and technologies; market acceptance of our products or our partners' products; design, manufacturing or software defects; changes in consumer preferences or demands; changes in industry standards and interfaces; unexpected loss of performance of our products or technologies when integrated into systems; as well as other factors detailed from time to time in the most recent reports NVIDIA files with the Securities and Exchange Commission, or SEC, including, but not limited to, its annual report on Form 10-K and quarterly reports on Form 10-Q. Copies of reports filed with the SEC are posted on the company's website and are available from NVIDIA without charge. These forward-looking statements are not guarantees of future performance and speak only as of the date hereof, and, except as required by law, NVIDIA disclaims any obligation to update these forward-looking statements to reflect future events or circumstances.
