

NVIDIA to Unveil Latest Accelerated Computing Breakthroughs in Virtual Special Address During CES

From Design and Simulation to Gaming to Autonomous Vehicles

SANTA CLARA, Calif., Dec. 16, 2021 -- NVIDIA today announced that it will deliver a special address during CES on Jan. 4, 2022, at 8 a.m. Pacific time.

Jeff Fisher, senior vice president of GeForce, and Ali Kani, vice president and general manager of Automotive, will present the latest breakthroughs in accelerated computing — from design and simulation to gaming to autonomous vehicles.

Watch the presentation at <https://www.nvidia.com/en-us/events/ces/>.

News related to the event will be posted at nvidianews.nvidia.com.

About NVIDIA

[NVIDIA](#)'s (NASDAQ: NVDA) invention of the GPU in 1999 sparked the growth of the PC gaming market and has redefined modern computer graphics, high performance computing and artificial intelligence. The company's pioneering work in accelerated computing and AI is reshaping trillion-dollar industries, such as transportation, healthcare and manufacturing, and fueling the growth of many others.
